ALBANY, ALAMEDA COUNTY, CALIFORNIA. FRIDAY, JULY 29, 1955

Number 45

State Engineer To Tell Rotary of Freeway Plans

Albert E. Simmons, assistant engineer, Division of Highways in charge of the freeway design in Contra Costa and Alameda Counties, will be the speaker of the day at the Rotary Club luncheon, next Tuesday noon at the Veterans Memorial Building, Portland and Ramona Aves., Albany.

The speaker's topic will be "Freeway Developments on U.S. 41 in Contra Costa and Alameda Counties." He is a registered civil and electrical engineer, and holds degrees from the University of California. Chairman of the day will be Fred Granholt, while President William Woolworth will preside.

Last Tuesday's program was exceptionally well received, and brought out a large turnout. Donnelly, expert dog fancier, gave a very interesting talk on the French poodle, which really is a German origin, and on a large "catle dog," whose ancestors came out of Asia in the days of Genghis Kahn. The latter is used to herd cattle, and to draw a small cart. It stands some 30 inches high and weighs upwards of 130 pounds.

Donnelly also brought along a couple of rare animals for his talk. One was a "kinkajou," a nocturnal arboreal and carnivorous animal from the rain forests of South America, which bears the scientific name of "cercoleptes caudivolvus." It has a prehensile tail, and makes its home in the upper branches of the tall trees of the rain forest. The other was a coati-mundi, a raccoon-like mammal which inhabits Southern Mexico, Central and South America. It has a pointed mobile snout and a long ringed tail. Those that come from the Amazon rain forests are nearly black in color, while those from southern Mexico are of a fulvous or tawny color.

Last Rites Held for Manuel M. Neves

Services were held yesterday, July 28, for Manuel M. Neves, an Albany resident for 19 years who passed away suddenly in Oakland on Monday. Mr. Neves, who was 38, lived at 826 Kains Avenue. He was a native of Portugal, but had lived in this country for 32 years.

Surviving are a wife, Mary V. Neves; a daughter, Mary Neves, and a son, Lawrence M. Souza.

Services were conducted by the Rev. John Hathaway Blackledge of St. Albans Episcopal Church at the Ellis-Olsen chapel, 727 San Pablo Avenue, Albany.

This Is Albany

MRS. EUGENE SILEON MY-LETT, of 920 Ramona Avenue, Albany, has just returned to her home here after a four months' tour through Europe and the Near East. Going to New York she joined a lady friend there and the two visited in England, France, Switzerland, Italy and Jerusalem.

Mrs. Mylett was enthusiastic over the mountains and lakes of Switzerland. She said they visited the little Swiss village of Zmutt, at the foot of the famous Matterhorn in the extreme south of Switzerland, probably the most famous in the world among mountain climbers. She was also thrilled by her visit to Venice; The Grand Canal, St. Mark's Cathedral, the Doge's palace, the Bridge of Signs and the city's famous churches. The visit to Jerusalem was also most impressive, although they entered by way of Beirut in Lebanon, and were unable to cross over into Israel. Even in Jerusalem itself they had to content themselves with seeing the Arab section, but found there most of the historic sights they were most anxious to see.

GRACE L. HIGGINS, Albany City Treasurer, spent the last weekend with members of her family in Walnut Creek.

POPULAR "JIM" DOLAN, of Dagna's Market, and wife Rose, left by train Monday for the East Coast. Jim will visit a brother in New York state whom he has not seen for 30 years. The Dolans plan to make the rounds of their relatives' homes in that area before returning to Albany.

H. W. SILVER, owner of the Morwear paint store at 1709 Solano Avenue, recently returned from a trip to Ashland, Oregon, where he visited with his mother, a brother and sister. Mr. Silver's mother only recently celebrated her ninety-first birthday. He reported that they had rather cool weather during their visit, and that it was delightful except for occasional high winds. His mother wrote him that the day after he left it turned uncomfortably warm. Silver said they had unusually cool weather driving down the valley and that it was a most enjoyable trip.

THE ALBANY MOTHERS Club will meet next Tuesday, Aug. 2, in the club room of the Albany YMCA, 921 Kains Ave., at 12 noon for its monthly luncheon and bus-

8-Lane Freeway Through Albany Seems Assured

Widening of the Albany overpass on the Eastshore Freeway, and widening of the remaining section of the freeway to the Contra Costa line at Albany's north limits, have been practically assured through the recommendation of the Alameda County Highway Advisory Committee to the State Highway Commission, under the date of July 20, of the imperative need of such construction.

For the past several years this important item has been more or less overlooked in the State's highway program, and it was even planned to widen the overpass, without also widening the highway on to the north. Last year the matter was even left off the agenda.

This year there have been many meetings of the Alameda County Advisory Committee to lay out a complete program for 1956 and 1957, and the Albany members have campaigned strongly for a widened freeway all the way to avoid an inevitable bottleneck within the city of Albany.

The campaign has been actively led by the Albany Chamber of Commerce, headed by Roy Harford, president, and by the other members from Albany of the County Advisory Committee. Gartner S. Thomas, manager of the C. O. C., mayor Lewis M. Howell, of Albany, and Howard B. Carter, Albany City Engineer.

Under the program for the county as presented to the State Highway Commission, and which undoubtedly will be adopted, the overpass will be widened to eight lanes, and the freeway north to the county line, which is also the north limit of Albany, will be widened to conform.

While it is not likely that any physical work will be done on this part of the project during the 1955-56 fiscal year, the program calls for preparation of detailed plans, fixing the rights-of-way and other engineering paper work which should pave the way for the actual work being done during the 1956-57 year.

According to Roy Harford, president of the Albany Chamber of Commerce, the work accomplished to date will go a long way toward bringing the much needed improvements leading to traffic safety and elimination of bottleneck within the city, and will end the long uphill drive during the last several years toward accomplishing that end.

Albany Library Issues Report For Fiscal Year

The people of Albany borrowed 88,895 books and magazines from their library during the fiscal year which ended last June 30, according to statistics recently released by the library.

2,278 new additions were made to the book stock during the same period.

21,191 books are held in stock in the library at the present time. Special requests mailed from Albany to county library headquarters totaled 467.

The number of borrowers in the active registration file as of June 30, 1955, is 5-660.

Streets Affected In Albany Paving Plan for 1955-56

At the Monday night meeting of the Albany City Council approval was given and advertising for bids authorized covering the resurfacing of the following streets: Sonoma Avenue from Curtis Street to the east city limits; Gateview Avenue from Washington Avenue to its northern end; Key Route Boulevard from Solano Avenue to Santa Fe Avenue.

Neilson Street from Solano Avenue to Marin Avenue; Pontoma Avenue from Thousand Oaks Boulevard to the north city limits; Garfield Avenue from Kains Avenue to Masonic Avenue; Spokane Avenue from Brighton Avenue to Portland Avenue; San Gabriel Avenue from Brighton Avenue to Portland Avenue.

Posen Avenue from Peralta Avenue to the east city limits, and Washington Avenue from Pomona Avenue to the east city limits.

THE ALBANY High School Swimming pool since its construction some five years ago, has become one of the Nation's most noted recreational facilities of its kind under the direction of Bert Griffin of the Albany Unified School District. Self-supporting, through swimming instruction fees, and rental at certain hours to private parties, the pool is "busy" from 8:30 a.m. to 9:30 p.m. five days of the week; from 8 to 5 on Saturdays, and from 3 to 5 Sundays. The pool may be engaged by private parties between the hours of 5 and 7 p.m. Above are shown the 14 instructors attached to the pool: Left to right, front row—Shirley Giberson, Colleen Conway, Sharon Gaddy, Marilyn McCusker, Ruth Conway and Marianne Collins. Rear row—Jorgine Smith, Rosalyn Burbage, Sharon Schaal, assistant head teacher; Cathy Lynch, Sherry Burnett, Mrs. Audrey Whitman, head teacher; Sydney Woolworth and Alli Burnett.

OPERATION "TADPOLE"—Above is shown a group of 3½ to 5-year-olds in the Albany swimming pool. On Wednesdays the water is lowered one foot to accommodate the little tots, and no one is ruled out if he or she measures up to the minimum of 30 inches from toe to under the chin. Classes of 45 youngsters are scheduled every half hour between 9:30 a.m. and 4:30 p.m. According to Bert Griffin of the Albany Unified School Department 75 per cent of the "tadpoles" who go through the 10-weeks' course become "waterborne," that is they are able to float or paddle, and perhaps swim after a fashion.

Cerrito de Oro Native Daughters Hold August Meeting Wednesday

Cerrito de Oro Parlor No. 396, Native Daughters of the Golden West will hold its first August meeting at St. John's Hall, 6712 Portola Drive in El Cerrito on Wednesday, Aug. 3 at 8 p.m. Edna de Martini, the president will preside.

Regular business will include reports by Ellen Coleman, drill captain, who will report on the special awards for fancy drill teams at the Sept. 9 parade in Santa Cruz. The Cerrito de Oro drill team has also accepted an invitation to participate in the Boys' Club fund raising fiesta in Emale on Sept. 18.

The Admission Day committee chairman, Veronica Giordana will present her regular report on the committee meetings held each Monday evening at the county offices in Oakland.

Members will report on attending installations held by Encinal Parlor No. 136 of Alameda; Sequoia Parlor No. 272 of Berkeley, and Fruitvale Parlor No. 177 of Oakland.

Cerrito de Oro's adopted daughter Judy Ann McQueen is ill in

Kensington Tots To Receive Polio Vaccine Aug. 3

Polio vaccine will be administered to Kensington school children from 9 to 11 a.m. on Wednesday, Aug. 3 at the El Cerrito High School cafeteria, according to an announcement just issued by Contra Costa County health officers.

The free injections will be given to children who were in the first or second grades in schools of the county last spring. Children must be accompanied by a parent or responsible adult, and will be required to present a request form signed by one of their parents.

Also required will be information giving the time and location of the clinic assigned to the school which their child was attending at the time the first injections were given. The child's records will not be available at the high school clinic this coming Wednesday.

The refreshment committee will consist of Grace Weeks, chairman; Oriette Weeks, Josephine Peat and Myrtle Armstrong.

CITY WILL RESURFACE 31 BLOCKS

A huge street resurfacing program was laid before the Albany City Council at its Monday night meeting, and was unanimously approved after brief discussion. The project includes the paving of 31 blocks and will cost approximately \$26,500. The money will come from State gas tax funds.

The Council ordered the advertising for bids covering the work, with August 8 set as the date for their consideration. The specifications will call for work to be started within 10 days of the award of the contract.

The Council received and accepted with regret the resignation of Walter C. Kees from the Traffic and Safety Commission, and Jerome R. Waldie from the Planning and Zoning Commission. Both men are moving out of the City. Letters of regret and appreciation of their fine service were ordered sent to each of them on behalf of the City.

The sum of \$35,000 was ordered transferred from the General Fund and deposited in the Albany Branch of the Bank of America in a savings account where it will draw one and one-quarter percent interest.

Other items disposed of by the Council included:

Transfer of alcoholic beverage license at 846 San Pablo Ave. Referred to Chief of Police.

Application of Recreation for the Blind to solicit funds, previously referred to the chief of police, returned with the comment that he had "No Objection."

City of Berkeley authorizing payment of \$739.55 to the City of Albany to cover Berkeley's share of the Supervised Recreational program at Codornices Village. Approved and the city attorney asked to draw up a resolution to cover P.G.&E. copies of Indemnity Company Continuation Certificates, extending the gas and electric franchise bonds to July 17, 1960, ordered held over one week.

City Engineer Carter, recommending resurfacing of numerous city streets, and asking that bids be called for. Approved and the city clerk instructed to advertise for bids.

Chief of police recommending that missed loading zones be discontinued. Approved and the city attorney instructed to draw up a resolution to cover.

City engineer requesting information as to the responsibility of the city in the cleaning of creeks. After considerable discussion, this was referred to the city attorney for a detailed opinion.

Communication from the State Highway Department submitting proposed Supplemental Freeway Agreement between the state and the city covering the Eastshore Freeway within the city. This was referred to the city engineer for a report at the council's next meeting.

A letter from Mayor Lewis M. Howell commending department heads and employees for their co-operation during the past years. It was moved by Councilman Combs, seconded by Councilman Blunk, that the council also send out a letter to the city's staff along the same lines and backing up the letter from the mayor. Councilwoman Zahn opposed this move and "passed" her vote. The motion carried with four "Ayes."

Resolution No. 1999 A.N.S. — Renewal of contract with Berkeley Humane Society. Approved, 5-0.

Resolution No. 2000 A.N.S. — Yellow pedestrian crosswalk near schools. Approved 5-0.

Ordinance No. 779 establishing side yards at 736 Key Route Blvd. Passed, second reading 5-0.

Ordinance No. 780 establishing side yards at 948 Ordway. Passed, second reading 5-0.

Ordinance No. 781 concerning assignment of street numbers by building department. Passed first reading 5-0.

Proposed changes in San Pablo-Solano bus stops. Councilman Combs and City Engineer Carter to meet with a representative of the Key System to endeavor to get together on a solution of the problem.

DROWSY DRIVERS

Drowsing in a chair by an open fire can be a pleasant pastime, according to the National Automobile Club. Drowsing at the wheel of a moving car can be a fatal mistake. Don't drive while drowsy.

keep it straight

United Crusade Leaders Named For Albany Area

Women, including a group in Albany, are showing the way to other volunteers preparing for this fall's United Bay Area Crusade. Mrs. Eugene M. Blank, 1602 Sonoma Ave., who will head the residential solicitation for the East Bay United Crusade here, has already named her division and section chairmen for the campaign.

The four division chairmen will be Mrs. Lee A. Seidell, 958 Ordway; Mrs. Fred Hendrickson, 1350 Marin; Mrs. Sisto Masuro, 736 Spokane; and Mrs. Henry Vila, 832 Polk.

Their section chairmen, in turn, are Mrs. Harold Morton, 1001 Peralta Ave.; Mrs. W. A. Anderson, 947, Ordway; Mrs. Paul Watts, 1020 Key Route Blvd.; Mrs. R. C. Ferguson, 1437 Marin; Mrs. Ted N. Latavala, 726 Pomona; Mrs. H. L. Kendall, 707 Spokane; Mrs. H. R. Lukens Jr., 506 Ramona; and Mrs. George Nesbitt, 715 Key Route Blvd.

2nd Lt. Grosser Assigned to Beale Air Force Base

Second Lieutenant Richard W. Grosser, son of Mr. and Mrs. Geo. Grosser of 1030 Neilson Ave., Albany, was recently assigned to Beale Air Force Base.

Lt. Grosser is air police and confinement officer at Beale, the western home of the Aviation Engineers.

He was graduated from Albany High in 1948. He attended San Jose State College and received his bachelor of arts degree in 1954 from San Francisco State, where he was an ROTC student.

Prior to his assignment at Beale, Lt. Grosser was a teacher in Hayward elementary school district in California.

ABOVE ARE SHOWN the four members of the National Champion Synchronized Swimming Team, indoor and outdoor. They also hold many other titles including the Pan-American Championship, won in Mexico City in March of this year. Left to right they are—Joan and Lynn Pawson, of Albany, and their sister, Dawn Pawson Bean, of Richmond. On the right is Loretta Barriours, of Oakland. They are members of the Athens Water Folies.

Enrollments Still Accepted In Meal Planning Course

Enrollments of both adults and young students 12 years of age or over are being accepted in the course, "Meal Planning and Preparation," at the Albany Adult Center.

This course, taught by Mrs. Idalia Pinkard and open to the enrollment of persons living in or out of Albany, is offered on Tuesday evenings, 7:15 to 10:15, at the Albany High School Building.

Mrs. Pinkard is so arranging her course that instruction will be given in: (1) classification of foods and their values in the diet; (2) menu planning; (3) balanced meals at low-cost budgeting; and (4) the actual preparation and serving of foods in the class. The instructor will emphasize class participation and discussions in sharing ideas and experiences, as well as in the preparation of the foods.

Among the dishes that will be prepared and served during the course will be breakfast dishes, hot breads, salads, low-calorie desserts, low-cost meats and any additional dishes that the group as a whole decides it would like to prepare in class.

There is no registration fee for students enrolled during the school term in a high, junior high or elementary school. However, they as

well as adults, must, in addition, pay the \$2 fee to cover the cost of food to be purchased. All adults must, in addition, pay a \$1 registration fee, which entitles them to take as many courses as they wish during the remaining five weeks of the summer session at the Adult Center.

Local Man Honored By Reader's Digest

T. J. Leahy, 1251 Portland Ave., Albany, recently won a Sterling silver honor emblem from The Reader's Digest, in recognition of outstanding service as a subscription representative of the magazine. Sterling silver honor emblems are awarded to only one in every 50 Digest representatives, so Mr. Leahy's achievement is noteworthy.

MARRIED SPOTS

Those married spots alongside the door at about the lock handle line are fairly common on today's automobiles, according to the National Automobile Club. Such spots are the product of close parking on parking lots where the door lock of the car next in line is likely to strike your car when the door is opened. A special job of touching these spots up costs very little at the modern paint shop and you cannot tell the patch from the original paint.

Wealth is not his that has it, but his that enjoys it.—Benjamin Franklin.

ST. ALBAN'S EPISCOPAL

Services on the Eighth Sunday after Trinity at St. Alban's Episcopal Church, 1501 Washington, Albany, will begin with 7:30 a.m. Celebration of Holy Communion.

Junior Church, including a story for children and the birthday thank offering, will be a part of the 11 a.m. service of morning prayer. After this the younger children may be excused to go to the nursery or to go home. Older children may stay through the entire service. The sermon by the rector, the Rev. John Hathaway Blackledge, is entitled: "The Crown of Wisdom."

Following this service is a coffee hour. Guests and members are invited.

+

GRACE LUTHERAN

"Build Your Lives on the Truth," will be the sermon topic of Rev. O. R. Janke, pastor, at Grace Lutheran Church, Santa Fe Ave. at Ward, in the 8:30 and 11 a.m. services next Sunday.

The lesson topic for the graded classes of the Sunday School meeting at 9:45 a.m., will be "Elijah and the Prophets of Baal." The Parish Bible classes meet at the same hour.

+

NORTHMINSTER PRESBYTERIAN

The sermon topic for Sunday, July 21, at the 11 a.m. Morning Worship service will be "The Gods are Dead," with the text Exodus 20:2-3.

It will be brought to the congregation by Rev. James M. Rassey. The incidental solo will be sung by Miss Gail Bradley. The choir will be directed during the anthem and responses by Roy Culbertson. Carol Culbertson will preside at the organ. The special music will be a duet by Phoebe Burnett and Roy Culbertson.

The Westminster Fellowship groups for the senior and junior Young People will meet this Sunday at 6 p.m. They will gather at the home of Rev. and Mrs. James B. Hubbell for a barbecue. Following the barbecue they will have a sing-along.

+

CHRISTIAN SCIENCE

How spiritual understanding of God as divine Love assures man of wise guidance and unlimited inspiration will be brought out at Christian Science services this Sunday.

The Lesson-Sermon entitled "Love" will include the following passages from the Biblical account of the guidance of the children of Israel in their flight from Egypt: "And the Lord went before them by day in a pillar of a cloud, to lead them the way; and by night in a pillar of fire, to give them light; to go day and night: He took not away the pillar of the cloud by day, nor the pillar of fire by night, from before the people" (Exodus 13:21,22).

Among the correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is the following (454:18-21): "Love inspires, illumines, designates, and leads the way. Right motives give pinions to thought, and strength and freedom to speech and action."

The Golden Text is from I John (4:8): "He that loveth not knoweth not God; for God is Love."

Many Involved in Injury Accidents

Forty-three thousand of the 72,000,000 licensed drivers in the United States were involved in fatal motor vehicle accidents last year, in which 36,000 persons were killed.

The 1955 edition of "Accident Facts," the National Safety Council's statistical yearbook, which is just off the press, also shows that 1,350,000 drivers were involved in nonfatal injury accidents.

OREGON HIGHWAYS

Oregon's highway system, according to the National Automobile Club, currently contains over 55,000 miles of roads, including forest, state and county roads.

Marines Serve

Today in Tradition Of Early History

In the cool gray dawn of a tropic day in 1775, a group of green-clad Continentals bent their backs to the task of rowing whale boats through the crawling surf of the Bahamas. They were hardy men—men who knew the sea, men who had left their forges, their saws and hammers, their shops and stores to strike a blow for liberty and shake off the shackles of a tyrant.

When the boats nudged quietly against the white sands the men dropped their oars, gathered up their muskets, their cutlasses and leaping into the water dashed for the beach. Within a matter of minutes the guns of an enemy fortress were spiked and its garrison captured. American Marines had begun their long and colorful career—one that would take them to every corner of the world to perform deeds of honor and valor. Deeds that have made U.S. Marines the most respected fighting men in the world.

Today U. S. Marines are serving in 70 countries throughout the world. Muskets have given way to modern weapons. Whale boats have been replaced by speedy amphibian tractors and sleek helicopters. But one thing has not changed. The Marines are still carrying out the original amphibious mission. The Marine comes in from the sea and by air to strike the enemies of our country wherever they may be—to capture or destroy them.

The Marine of the modern Corps is a highly trained fighting man, he is required by the very nature of his job, to be the most versatile of any fighting man in the world, he must be able to guard American embassies whether in Moscow or Paris. He must be able to learn the technical jobs that are required to keep himself in the same fighting trim that earned Marines the respected nickname of "Devil Dogs" in World War I. Most of all he must love his country enough to want to live for it and let the enemy die for his country. The Marine is trained to take care of himself and his teammates—because that is what each Marine is—a teammate on an unbeatable team—poised, ready to strike from land, sea or air—a team that has never been defeated.

Young men over 17 who are interested in trying out for the "first team" should contact the Marine Recruiter in the Oakland Post Office or call GL. 1-9130. The period of enlistment is for three or four years and there are openings for immediate assignment to duty.

CARS EXPORTED

The United States exported 13,930 passenger cars to Belgium in 1953, according to the National Automobile Club.

to every woman who is tired of cooking every day

You can cut your kitchen time at least in half—by following this simple concept of cooking in quantity...and freezing for future meals

Here's all you do. Whenever you're preparing food—whether it's a complete dinner, a cake, applesauce, just about anything—simply double or triple your recipe as you wish.

ing up on seasonal foods when prices are lowest. And perishables like strawberries, corn, peaches, green beans are always on hand—to bring more variety to all your meals, all year round.

And in one operation you've prepared several extra servings, to store for future meals, in your freezer. They will stay fresh and flavorful for months in a freezer—ready to heat and take to the table, any time!

You save shopping time, too—because you can buy in quantity for a freezer. Economize, by taking advantage of sales and specials...stock-

You can find the size and style freezer to fit your family's needs. And easy payment plans can be tailored to fit any budget. Freezers are economical to run, too, thanks to P. G. and E.'s low rates. Why not make your investment in new hours of freedom from kitchen work, right now. See your appliance dealer about new freezer today—plan to freeze yourself some spare time (lots of it!) starting tomorrow.

'Look Up' Slogan Calls Attention To Power Safety

"Look Up."

That's the slogan of a widespread campaign to encourage safe practices by everyone working near power lines.

Deaths and injuries have been resulting from careless practices, say Pacific Gas and Electric Company and the California Division in Industrial Safety in their joint effort to call the public's attention to the need for care when working near high-voltage wires.

"Power Lines are safe as long as you are careful," says a booklet being circulated to employee, employer and other groups throughout northern and central California. The booklet also notes that many every-day items must be handled with care—among them knives, nails, ladders, axes, skates, pressure cookers, guns and matches.

Under a California Penal Code section making it a misdemeanor to allow workmen to bring equipment or other objects within six feet of a high-voltage line, violations have been charged against employers as the result of the Industrial Safety Division's field work.

"But," experts of the division and of PG&E commented today, "a fine or a jail sentence won't bring back a life."

The Penal Code also requires cranes, power shovels and other mobile equipment of this type to carry large-lettered signs reading, "Unlawful to operate this equipment

GM Builds New Train

CHICAGO—GENERAL MOTORS LIGHTWEIGHT TRAIN, shown here in artist's conception, will be unveiled at the GM Powerama—a "world's fair of power"—in Chicago August 31—September 25. GM's Electro-Motive Division at La Grange, Ill., is building the revolutionary train at the request of a committee of railroad presidents. After its introduction at the spectacular Powerama, the train will be tested on major railroad lines.

More Openings In Navy Aviation

Chief Leon Pius, SHC, USN, local Navy recruiter, announced today 133 openings for the current month in Navy aviation for air-minded young men in this area. The Navy guarantees airmen enlistees technical training in the air branch of the fleet.

According to Chief Pius, men must be between the ages of 17 and 31, physically fit, must pass a qualification test, and express a desire for training in aviation. Accepted men will go through recruit training at San Diego, and then will be transferred to Memphis, Tenn., for eight weeks of basic airman training before being sent to class "A" school for specialist training.

Information on this and other Navy programs can be obtained from the Navy recruiter at the Main Post Office Building, Oakland.

36 Enlistees Join Navy From East Bay Area

Chief John A. Warren, local recruiter located in the main Post Office Building received word today from his skipper, Commander W. D. Owen, that over 500 young men in Northern California and Western Nevada joined the Navy during June. Out of this total, 36 were from this area.

June enlistments were termed "highly satisfactory" by Commander Owen. Most of the recruits were high school graduates who enlisted in the program under which the Navy guarantees them specialist training in electronics, photography, radio, construction and many other fields.

A large number of groups of two to four signed up in the "buddy" program, whereby friends may enlist, train and come home on their first leave together. This program

Many Injuries In College Athletics

Dying for dear old Rutgers may be an exaggeration, but college athletics do account for almost one out of three injuries to college students.

That was revealed by a special study of student injuries at 11 colleges made by the National Safety Council and the American College Health Association and reported in the 1955 edition of the council's statistical year book, "Accident Facts," just off the press.

He that does good for good's sake, seeks neither praise nor reward, but he is sure of both in the end.—William Penn.

has proved very popular, according to Commander Owen. Several recruits will receive training in Navy aviation, a program open to all young men.

within six feet of high-voltage lines."

Persons most susceptible to accidents through contacting power lines, say the safety experts, are those handling portable irrigation pipe or nut harvesting poles, operating cranes, hay loaders or well-drilling rigs, or installing television antennas. Accidents also result occasionally from the careless flying of kites and model airplanes and the careless operation of spray rigs and construction and painting scaffolding.

Always Determined By The Family

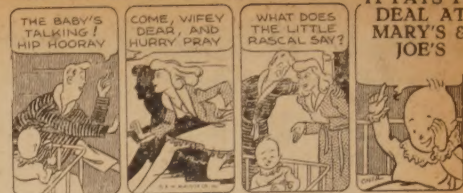

Every so often, we are asked about the cost of a service at the Ellis Olson Mortuary. It is, of course, impossible for us to answer by giving a set figure, since we do not determine the cost of a service.

The cost is always determined by the family at the time the selection is made; the moderate cost of an Ellis-Olson service depends entirely on the merchandise chosen.

CRATER ROCK MUSEUM
Crater Rock Museum in Central Oregon, is reported by the National Automobile Club to be a mezevous for rock hounds interested in finished or rough agate material.

WASHINGTON

Washington is the only state in the Union named for a president, according to the National Automobile Club.

For the 1955 edition of the National Safety Council's statistical yearbook, "Accident Facts," shows that agriculture ranks among the most dangerous of industries.

Only high hazard occupations such as construction and mining surpass the accidental death rate of farm workers.

'Indian Devil Legend Gave Name to Famous Diablo

Standing all alone in the center of a great plain, almost in the center of Contra Costa County, and raising its grand and rugged peak close to 4000 feet into the California sky, El Monte del Diablo, or Mount Diablo, as the mountaineers call it, is probably one of the most colorful mountains in the state today.

Even the way in which it received its name is colorful. According to a report by General Vallejo, a military expedition had been sent out from San Francisco in 1806 to wage war on a tribe of Indians that lived near and on the mountain. During the battle, when victory was beginning to go to the Indians, a large figure dressed in a strange costume and making strange dancing movements, appeared along the contestants, and shortly thereafter the victory went to the Indians. When the Spaniards learned that this figure would appear almost daily and go through this strange dance, they came to the conclusion that this was the devil of the mountain and named the mountain the Mountain of the Devil accordingly.

Since Mount Diablo occupies such a prominent position in such a large plain, it is little wonder, points out the National Automobile Club, that it has come in for considerable attention from the survey crews. Back in 1851 a government cabin and telescope were built on the summit and this summit was chosen as base point for United States surveys in California, in relation to which all the lands, with the exception of the Humboldt district and Southern California, are located.

Tourists found the mountain of interest, too. Here they could find

wild flowers in abundance, majestic oaks, strange natural formations, and views of the countryside that could not be surpassed. A war on road from Concord was built and one from Danville. Where the roads met about a mile below the summit, the last mile being too steep for the wagons, a mountain house was built and tourists came from all over the world to enjoy the hospitality here and survey the surrounding valleys.

In the 1890's the old government cabin burned down. Later the roads were abandoned and ranchers, who didn't want tourists crossing their lands burned down the mountain house. On April 26, 1931, however, the magic mountain was again opened up to the passing tourist when it became a part of the California State Park System, the position of prestige it enjoys today.

OUT OF STATE CARS

A total of 405,720 motor vehicles entered California during June of this year as compared with the 378,607 that entered during June, 1954, reports the National Automobile Club. Of the June, 1955, total, 376,689 were passenger cars, 24,803 were commercial trucks, and 1,228 were stages.

REAR LIGHTS

When driving at night be sure that your rear lights are burning, advises the National Automobile Club. Blinded by the glare of oncoming headlights, drivers often find it difficult to see a car ahead unless the warning red lights are burning brightly.

More than 678,000 persons were injured in week-end traffic accidents in the United States during 1954.

'How 'Snowshoe' Thompson Carried The Sierra Mail

In the old days of gold in California, winter in the mountains could be a very dreary thing. It wasn't only that it was cold, it was lonely, and many a homesick miner spent long, winter nights wondering about the mail from home that might be waiting for him over at Carson City in Nevada.

This was a bad situation, points out the National Automobile Club, when in the year 1851 a tall Norwegian by the name of John Thompson moved into the little settlement that was then known as Langtown and is now known as Placerville.

John saw the isolation of the miners and came to the conclusion that something should be done about it. Having been raised in Norway, he knew the ways of snow and the ways to get over it, and it wasn't very long before he had managed to fashion out of a pair of sturdy oak staves a pair of homemade skis that were crude but effective. With these on his feet he set out across country and soon had established between Hangtown and Carson City a ninety-mile route over which he brought mail to the lonely miners.

Thompson's route was over a wild and primitive terrain and the pack he carried on his strong shoulders usually ran anywhere from sixty to a hundred pounds in weight. The eastward journey was mostly uphill and working his way through the deep snowfalls and the blizzards it usually took him around three days to make Carson City. On his way back the going was better and he's make it into Hangtown in a good two days. At night he would shelter beneath some tree or in some crevice between large boulders and light a fire close by to keep the frost out of his bones.

But carrying the mail for "Snowshoe" Thompson, as he came to be known, was only the routine business of the day. Rescuing of exhausted miners or bewildered parties of immigrants gave him an even greater satisfaction. It's little wonder that the man became widely known and admired and that even today numbers of visitors journey to his grave in Genoa near Reno in Nevada to look with great interest on the crossed skis that are carved upon his tombstone.

There is no man, no woman, so small but that they cannot make their life great by high endeavor.—Thomas Carlyle.

Boy Scout Camp Herms Open Throughout Summer

Do you have a boy between the ages of 11 and 18 who is a Boy Scout or interested in becoming one, who is constantly asking you why you can't go to the country more often or swimming or camping overnight — don't stop reading now. Strange as it may seem, there is a piece of wild countryside within the El Cerrito city limits and no more than 30 minutes' drive from the most distant reader (barring foreign subscriptions). This is Camp Herms at the Mt. Diablo Council, Boy Scouts of America. Located at 1290 Arlington Blvd., El Cerrito, or call TH. 3-8433 or write to Mt. Diablo Council, Boy Scouts of America, 2040, 4th St., Berkeley.

Thousands of dollars have been put into this camp for your boy. Do you want to know more about the camp? Come out and see John Bell at Camp Herms, 1290 Arlington Blvd., El Cerrito, or call TH. 3-8433 or write to Mt. Diablo Council, Boy Scouts of America, 2040, 4th St., Berkeley.

Because of the large number of boys registered in scouting (over 17,000 in the Mt. Diablo Council) the camp is run only for Boy Scouts, Cub Scouts and Explorers. The program director, John Bell, welcomes all Scouts from anywhere to use the facilities in the camp. John has had many years of experience in Scouting in all parts of the U.S. including Alaska, and he has chosen about 50 boys from many thousands to run the camp with him.

Boy Scouts may come to Camp Herms alone, with a friend or patrol, or with his whole troop, with or without an adult leader. He may stay for one day or one month — as long as he likes and as long as his food holds out. He will be able to set up his own campsite under the trees or sleep in a closed cabin. He will find unlimited opportunities for Scoutcraft advancement and instruction. Swimming and lifesaving are taught in the beautiful swimming pool. Every afternoon, except Tuesday, there is a free "fun-time" swim.

Your boy may want to work on a billfold or moccasin kit bought at the camp store. Perhaps he'll spend some of his time in the nature museum looking over some of the valuable exhibits. He may learn to cook, hike, set up bridges and towers, signal in Morse Code. To name all the possible activities would be to write a book. (At night he can study the stars and take part in the camaraderie of a campfire program).

And all this is free. That's right — it doesn't cost a cent. A sleeping bag, some food, and a few extra clothes will see your boy through for as long as he wants to stay.

Auto Accidents in 1910-54 Compared

Nineteen times as many were killed in motor vehicle accidents in 1954 as in 1910 — were 123 times as many on the highways and streets as in 1910. In addition to 36,000 killed, 250,000 persons were injured in motor vehicle accidents last year.

The 1955 edition of "Accident Facts," the National Safety Council's statistical yearbook, shows just off the press, showing Americans drove 560,000,000 miles.

Right motives give thought, and strength and action to speech and action — Eddy.

Why not give him the facilities to learn and play.

How telephone drivers guard your safety

Protecting your safety and that of your family is a big part of every telephone driver's job. And to prepare our drivers for this responsibility, we give each a special course in what we call defensive driving. This teaches telephone people to drive in such a way as to prevent accidents no matter what others may do. And it really pays off. For example, telephone drivers covered more than 80 million miles last year without a single fatal accident. Naturally, careful driving this helps make the streets safer for everyone. And by having us keep skilled people on the job, it enables us to work faster, more efficiently... to bring you good telephone service. Telephone works to make your telephone a bigger value every day.

How to help people get in touch with you faster

ence between getting or missing important calls. And you have your own listing at small cost. So why not call us at telephone business office and talk it over.

The New Look For Kitchens

The new look in Kitchens! It's Color. Refrigerators and Freezers - Stoves - Tables - Sinks - Drainboards - and that necessary Kitchen Telephone - All are available in color.

Why not step into our office at 1533 Franklin Street and see the latest in kitchen appliances displays along with the latest in telephones - telephones in matching or harmonizing colors.

Mrs. Barbara Shepherd, Pacific Telephone Service Representative, is pictured demonstrating the various styles of colored telephones available for your kitchen.
